

December 2017

Happy Holidays!

We are writing to invite you to take advantage of our 2018 Equine Wellness Program. We have been offering our Wellness Program to our clients for more than a decade. Based on your use of our services in the past, we feel that our Wellness Program would be of great benefit for you and your horse(s).

Our Wellness Program is a comprehensive package that includes all of your horse's recommended preventative care requirements for the entire year. **Clients who enroll their horses in our Wellness Program save 20% on all of the included services!**

The program consists of a spring appointment and a fall appointment. A summer appointment is optional. The spring appointment includes an examination, dental exam, core vaccinations, fecal examination, and several other optional services. The fall appointment includes a short exam, dental exam, fecal, and vaccination for influenza and rhinopneumonitis, as well as options for floating and a few other services. The optional summer appointment is available if you would like to vaccinate for Potomac Horse Fever, and/or Strangles. An individualized deworming program is part of the package also. The initial package includes two dewormers, but more may be purchased at a discount if your horse's fecal exams indicate they are needed.

More detailed information about the program can be found on our website, www.buffaloequine.com, or feel free to call the office at 763-682-2225 for assistance. If you would like to enroll your horse, we have included an enrollment form with this letter. Additional forms can be printed from the Wellness Program page on our website.

Enrollment is available for a limited time only. All forms and payments must be received by January 31st.

We hope that 2018 brings you and your horse(s) health and happiness and look forward to seeing you soon!

Sincerely,

The Doctor's and Staff of Buffalo Equine
